

SETUP AND FIRST USE GUIDE

TourClicks

Schedule, pay periods, leave balances, verification, and backup

Start small. Verify each section. Keep an export.

Purpose: This guide helps a new user set up TourClicks without filling uncertain fields. It separates the minimum setup from optional payroll and leave projections.

Prepared from the TourClicks web app, public repository, and official USPS references

Guide date: August 2026

[START HERE](#)

How to use this guide

TourClicks can look complex because it combines daily time records, leave projections, FMLA references, reports, images, and backup tools. You do not need to configure every feature before using the daily timecard.

Best approach: Complete the Quick Start first. Add verified leave information only after you have one finalized ePayroll statement.

Two setup paths

Figure 1. Quick Start gets the app usable. Full Setup adds verified records later.

Guide sections

Section	Purpose
Parts 1-2	Gather sources and complete the Quick Start
Parts 3-4	Add verified leave and optional settings
Part 5 + appendices	Verify, troubleshoot, use tables, and complete the worksheet

PART 1

Gather your setup information

You can complete the schedule and pay-period setup with two sources. The remaining documents support leave projections, reporting, and optional records.

Information	Where to find it	TourClicks section	Priority
Regular schedule	Posted schedule, bid assignment, or current local instruction	Weekly schedule	Needed now
Pay-period calendar	USPS Postal Bulletin pay dates and leave-year chart	Pay-period anchors	Verify now
Leave values	One finalized ePayroll statement, Leave section	Leave accrual and balances	Useful later
Clock rings	LiteBlue Virtual Timecard	Daily comparison or screenshot review	Useful later
Position details	PS Form 50 or eOPF	Employee profile	Optional
FMLA limits	Official designation or approval notice	FMLA case	If applicable
Holiday details	Official calendar plus posted schedule or local instruction	Holiday record	If applicable
Penalty exclusion	Official notice, agreement, or trusted guidance	Premium settings	If applicable
Existing data	Trusted TourClicks or Janus JSON export	Import backup	For restore

Prepare before entering leave

- Use one finalized ePayroll statement for every starting leave component.
- Record the pay period number and its Friday end date.
- Redact your EIN and other personal values from any tutorial images.
- Do not collect or enter a LiteBlue password in TourClicks.
- If a value is uncertain, leave it for later instead of estimating it.

- ☐ I have my normal Begin Tour, End Tour, lunch, and nonscheduled days.
- ☐ I have the official pay-period chart for the year I am setting up.
- ☐ I have one finalized ePayroll statement, or I will skip leave setup for now.
- ☐ I know where I will store the first export backup.

PART 2

Quick Start

This path makes TourClicks usable in about 5 to 10 minutes. It avoids optional fields that require official records.

Step 1. First launch

1. Open TourClicks. Read the local-storage and independent-app explanation.
2. Choose Continue to configure the weekly schedule.
3. At the optional starting leave page, choose Skip for now if you are starting mid-year or do not have verified components.
4. Open Settings later when you are ready to add detailed leave information.

Mid-year accuracy: The simplified onboarding asks for current balances, but TourClicks also calculates leave earned from the leave-year start. A mid-year current balance can be counted with those calculated accruals. Skip that step and use the detailed Settings fields when accuracy matters.

Step 2. Build the regular weekly template

The screenshot shows the 'TourClicks Settings > Weekly schedule' screen. At the top, there's a header bar with the text 'TourClicks Settings > Weekly schedule'. Below it, a subtitle reads 'Set the normal template. Change unusual dates later from Today.' The main section is titled 'Weekly schedule'. There are three buttons at the top: 'Copy Monday to Tue-Fri', 'Copy first workday to all', and 'Reset defaults'. Below these are three columns for days of the week: SAT, SUN, and MON. Each column has a status label (Nonscheduled for SAT and SUN, Scheduled for MON), a 'Begin Tour' time field (5:00 AM), an 'End Tour' time field (1:30 PM), and a 'Lunch minutes' field (30). A 'Save weekly schedule' button is at the bottom right.

Day	Status	Begin Tour	End Tour	Lunch minutes
SAT	Nonscheduled	5:00 AM	1:30 PM	30
SUN	Nonscheduled	5:00 AM	1:30 PM	30
MON	Scheduled	5:00 AM	1:30 PM	30

Figure 2. Weekly schedule editor. The real app lists Saturday through Friday.

1. Open Settings and expand Weekly schedule.
2. Review the days in postal-week order: Saturday through Friday.
3. Mark each fixed day off as Nonscheduled day.
4. Enter Begin Tour, End Tour, and lunch minutes for each scheduled day.
5. Use Copy Monday to Tue-Fri only when those days truly match.
6. Select Save weekly schedule.

Irregular schedules: Enter the most common schedule as the template. On an unusual date, use Today to select Scheduled workday, Nonscheduled day, Training schedule, or Changed schedule.

Schedule verification

- ☐ The week runs Saturday through Friday.
- ☐ Each fixed day off is marked Nonscheduled day.
- ☐ Begin Tour, End Tour, and lunch match the normal assignment.
- ☐ I know how to use Changed schedule for an exception.

Step 3. Verify the pay-period anchor

TourClicks Settings > Pay-period anchors

Use the first Saturday of Week 1. Do not use the payday.

Verified 2026 anchor

Pay year: Pay period number:

Week 1 start date: Periods in pay year:

[Add or replace anchor](#)

- 1 Anchor**
First Saturday of PP01
- 2 Not payday**
January 2 is the pay date
- 3 One entry**
App advances every 14 days

Figure 3. The verified 2026 anchor uses the first Saturday of Week 1.

TourClicks advances pay periods in 14-day blocks. One correct annual anchor is normally enough.

Field	2026 value	Meaning
Pay year	2026	The pay-period year
Pay period number	1	The starting anchor
Week 1 start date	December 13, 2025	The first Saturday of PP01
Periods in pay year	27	The official 2026 count

Source: [USPS 2026 Pay Dates and Leave Year](#)

Do not use the payday: PP01 starts December 13, 2025. Its payday is January 2, 2026. Enter December 13 as the anchor.

The 2026 pay year and the 2026 leave year are different calendars. The official 2026 leave year starts January 10, 2026, in PP03-2026, and ends January 8, 2027, at the end of PP01-2027.

Step 4. Enter one test day

TourClicks First usability test

Verify the calendar before entering real records.

Daily timecard

PP-WK 13-2 | 05/30/2026 through 06/12/2026

BT	Begin Tour	05.00
OL	Out Lunch	11.50
IL	In Lunch	12.00
ET	End Tour	13.50

- 1 Confirm the PP-WK label
- 2 Check the schedule status
- 3 Enter BT, OL, IL, and ET
- 4 Review totals and Calendar
- 5 Delete or label the test record

Figure 4. Use fictional or disposable values until the setup checks pass.

1. Open Today and select a date whose pay period you can confirm.
2. Compare the PP-WK label and date range with the official chart.
3. Expand Schedule and day status. Confirm the regular template or choose Changed schedule.
4. Enter BT, OL, IL, and ET. Suggested schedule values are not saved punches.
5. Review Worked, Lunch, Start variance, Straight time, OT, Penalty OT, and Night differential.
6. Open Calendar and confirm that the day appears.
7. Delete the fictional record or label it clearly as a setup test.

Step 5. Export the first backup

Figure 5. Export after setup and before importing or changing devices.

1. Open Settings and expand Data and backup.
2. Select Export backup.
3. Store the JSON file somewhere separate from the app and current browser profile.
4. Keep the newest known-good export before testing an import.

PART 3

Verified leave setup

Use this section only when you have a finalized ePayroll statement. TourClicks uses the values as components in a projection. It does not simply copy the displayed current total.

Read the ePayroll Leave section

ePayroll label	Meaning
AL CAT	Annual-leave earning category
AL PRIOR YR BAL	Annual leave carried into the leave year
AL EARNED YTD	Annual leave earned through the statement period
AL HOL EARNED YTD	Holiday annual-leave credits earned YTD, when shown
AL USED YTD	Annual leave used through the statement period
EARNED AL BAL	Earned annual-leave balance
AL ADVANCED	Advanced leave not yet earned
AVAIL AL BAL	Total annual leave currently shown as available
SL CAT	Sick-leave earning category
SL PRIOR YR BAL	Sick leave carried into the leave year
SL EARNED YTD	Sick leave earned through the statement period
SL USED YTD	Sick leave used through the statement period
CURRENT SL BAL	Current sick-leave balance

Source: [USPS Earnings Statement Redesign of Leave Sections](#)

One cutoff: Use the Friday end date of the pay period covered by the statement as the Baseline through date. Do not use the payday, download date, or today's date.

Map ePayroll to TourClicks

TourClicks Settings > Leave accrual and balances

Use values from one finalized ePayroll statement.

Annual leave per PP	Sick leave per PP	Year-end AL adjustment	Full-year AL advance
6	4	4	160
AL carried over	SL prior-year balance	AL used YTD before app	SL used YTD before app
40.00	500.00	32.00	16.00
Baseline through date	Leave year start	Leave year end	
06/12/2026	01/10/2026	01/08/2027	

Save accrual settings

Figure 6. Fictional Category 6 example. Replace every value with your own official components.

TourClicks field	Official source	Entry rule
Annual leave per full pay period	AL CAT	Typical full-time values are 4, 6, or 8. Use the statement.
Sick leave per full pay period	SL CAT	Typical full-time value is 4. Verify status.
Year-end annual adjustment	Category rule	Use 4 for the standard full-time Category 6 pattern; 0 for Category 4 or 8.
Full-year annual leave advance	Annual entitlement	Typical full-time totals are 104, 160, or 208. Do not copy only the remaining AL ADVANCED.
AL carried over from prior year	AL PRIOR YR BAL	Do not use AVAIL AL BAL.
SL prior-year balance	SL PRIOR YR BAL	Copy the prior-year component.
AL used YTD before app tracking	AL USED YTD	Enter once from the same statement.
SL used YTD before app tracking	SL USED YTD	Enter once from the same statement.
Baseline through date	Statement pay-period end	Use the Friday cutoff date.
Leave year start/end	USPS annual chart	For 2026: Jan 10, 2026 through Jan 8, 2027.

Standard full-time accrual reference

Category	Creditable service	Accrual	26-period total
4	Less than 3 years	4 hours per full PP	104 hours
6	3 to less than 15 years	6 hours per full PP plus 4 in last full PP	160 hours
8	15 years or more	8 hours per full PP	208 hours
Sick leave	Full-time	4 hours per full PP	104 hours

Source: [ELM 512 Annual Leave](#)

Source: [ELM 513 Sick Leave](#)

Part-time and special cases: Part-time accrual can depend on pay-status hours. LWOP, status changes, corrections, rural leave units, or other adjustments can change the result. Keep the official statement as the controlling record.

Fictional Category 6 example

Assume one finalized statement covers the pay period ending Friday, June 12, 2026. The statement shows AL CAT 6, AL PRIOR YR BAL 40, AL USED YTD 32, SL CAT 4, SL PRIOR YR BAL 500, and SL USED YTD 16.

TourClicks field	Fictional value
AL per full PP	6
SL per full PP	4
Year-end AL adjustment	4
Full-year AL advance	160
AL carried over	40
SL prior-year balance	500
AL used YTD baseline	32
SL used YTD baseline	16
Baseline through date	June 12, 2026
Leave-year dates	Jan 10, 2026 to Jan 8, 2027

Prevent double counting

Figure 7. Official YTD values cover history through the baseline date.

- AL USED YTD and SL USED YTD already include official use through the selected statement period.
- Enter each YTD total once as baseline use.
- TourClicks adds leave records dated after the baseline.
- Do not recreate earlier leave as new use unless you verify that the baseline will not count it again.
- Do not put AVAIL AL BAL into AL carried over from prior year.
- Do not copy only the remaining AL ADVANCED into the full-year advance field.

Reconcile after saving

1. Save the accrual settings.
2. Open Leave/FMLA and review the Annual Leave and Sick Leave breakdown panels.
3. Compare equivalent components and dates with the finalized statement.
4. If the difference is large, recheck the baseline date, prior-year balances, category rates, advance, YTD use, holiday credits, and duplicate app entries.
5. If correct entries still differ, record the adjustment and follow the official statement.

PART 4

Optional settings

Employee and installation profile

Profile information supports report headers. It is not required for daily time entry.

Field group	Suggested source	Privacy choice
Name and preferred report identity	Your own records	Enter only if needed
EIN	Official personnel or payroll record	Optional and sensitive; shareable reports omit it
Craft, position, level, step	PS Form 50 or eOPF	Optional
Installation, unit, city, state	PS Form 50, assignment, or local record	Optional
Finance number	Official payroll or facility record	Optional

Privacy: Leave the EIN blank unless it serves a real purpose. Preview a report in shareable mode before sending it.

FMLA case setup

Create a case only when it applies. Use the official designation or approval notice as the source.

- Use a neutral case label.
- Enter the expiration date and renewal warning when documented.
- Enter the case or reference number only when useful.
- Copy approved frequency or case limits without unnecessary medical details.
- TourClicks records usage. It does not approve, certify, renew, or submit FMLA.

Holiday and designated-holiday records

- Use the official USPS calendar for the actual holiday date.
- Confirm the designated holiday from the posted schedule, local agreement, or official instruction.
- Treat built-in suggestions as starting points, not final determinations.
- Record assignment facts and evidence when they matter.

Premium calculation settings

Enter a penalty-overtime exclusion window only when you have an official source or trusted contract guidance. Leave both dates blank when the period is unknown. TourClicks estimates do not replace payroll or contractual determinations.

Optional-setting check

- ☐ Every optional value has an official or trusted source.
- ☐ I left unknown dates and identifiers blank.
- ☐ I removed unnecessary medical details from case notes.
- ☐ I previewed a shareable report before sending it.
- ☐ I exported a backup after finishing these changes.

PART 5

Verify and maintain the setup

Final setup checklist

- ☐ My weekly template follows Saturday through Friday and matches my normal schedule.
- ☐ My fixed nonscheduled days are marked correctly.
- ☐ A known date displays the correct PP-WK and pay-period range.
- ☐ I used the first Saturday of Week 1 as the anchor, not the payday.
- ☐ My leave values came from one finalized statement, or I intentionally skipped leave setup.
- ☐ My baseline-through date is the Friday ending that statement's pay period.
- ☐ I did not place AVAIL AL BAL in the carried-over field.
- ☐ I checked whether Category 6 needs the 4-hour year-end adjustment.
- ☐ I understand that part-time, LWOP, status changes, and adjustments may require reconciliation.
- ☐ My profile contains only information I need.
- ☐ My FMLA record contains no unnecessary medical narrative.
- ☐ I entered and reviewed one test day.
- ☐ I exported a backup and stored it separately.

Troubleshooting

Symptom	Likely cause	What to check
PP is one or two weeks wrong	Payday, Sunday, or Week 2 used as anchor	Use the first Saturday of Week 1 from the official chart
AL balance is much too high	Current available balance treated as opening value; advance or accrual counted twice	Recheck AL PRIOR YR BAL, full-year advance, rate, YTD use, and baseline
Leave changes before baseline	Historical app entries overlap official YTD use	Correct the baseline or remove duplicate historical use
Category 6 total is four hours short	Year-end adjustment is missing	Verify the rule and enter 4 when applicable
Only one schedule date is wrong	That date is an exception to the template	Use Today and select Changed schedule or another day status

Troubleshooting - continued

Symptom	Likely cause	What to check
Suggested punches show no totals	Suggestions are not saved punches	Enter or stamp the needed BT, OL, IL, and ET
Worked time or lunch is wrong	OL or IL missing, reversed, or entered in wrong format	Check both lunch punches and clock-time versus hundredths
Browser records disappear	Browser profile or site storage changed	Restore the newest trusted export
Report shows private details	Private profile fields included	Use shareable mode and preview before sending
Projection differs from payroll	LWOP, part-time accrual, correction, or other adjustment	Follow the official record and document the difference

Routine maintenance

When	Action
Each workday	Record punches, status changes, leave, and useful notes
Each pay period	Compare selected days with Virtual Timecard and review missing punches
After finalized ePayroll	Compare leave components and record any official adjustment
After major changes	Export a new backup
New pay year	Add the official PP01 Week 1 anchor and pay-period count
New leave year	Update leave-year dates and verify opening components
Before sharing	Preview report privacy and remove unnecessary identifiers

Best usability habit: Change one section at a time, save it, verify one known record, and export before moving to the next major change.

APPENDIX A

2026 pay-period quick reference

TourClicks uses the start date in this table. The pay date is included only for comparison. PP01-2026 starts in December 2025.

PP	Start Saturday	End Friday	Pay date
01	Dec 13, 2025	Dec 26, 2025	Jan 2, 2026
02	Dec 27, 2025	Jan 9, 2026	Jan 16, 2026
03	Jan 10, 2026	Jan 23, 2026	Jan 30, 2026
04	Jan 24, 2026	Feb 6, 2026	Feb 13, 2026
05	Feb 7, 2026	Feb 20, 2026	Feb 27, 2026
06	Feb 21, 2026	Mar 6, 2026	Mar 13, 2026
07	Mar 7, 2026	Mar 20, 2026	Mar 27, 2026
08	Mar 21, 2026	Apr 3, 2026	Apr 10, 2026
09	Apr 4, 2026	Apr 17, 2026	Apr 24, 2026
10	Apr 18, 2026	May 1, 2026	May 8, 2026
11	May 2, 2026	May 15, 2026	May 22, 2026
12	May 16, 2026	May 29, 2026	Jun 5, 2026
13	May 30, 2026	Jun 12, 2026	Jun 18, 2026

2026 pay-period quick reference - continued

PP	Start Saturday	End Friday	Pay date
14	Jun 13, 2026	Jun 26, 2026	Jul 3, 2026
15	Jun 27, 2026	Jul 10, 2026	Jul 17, 2026
16	Jul 11, 2026	Jul 24, 2026	Jul 31, 2026
17	Jul 25, 2026	Aug 7, 2026	Aug 14, 2026
18	Aug 8, 2026	Aug 21, 2026	Aug 28, 2026
19	Aug 22, 2026	Sep 4, 2026	Sep 11, 2026
20	Sep 5, 2026	Sep 18, 2026	Sep 25, 2026
21	Sep 19, 2026	Oct 2, 2026	Oct 9, 2026
22	Oct 3, 2026	Oct 16, 2026	Oct 23, 2026
23	Oct 17, 2026	Oct 30, 2026	Nov 6, 2026
24	Oct 31, 2026	Nov 13, 2026	Nov 20, 2026
25	Nov 14, 2026	Nov 27, 2026	Dec 4, 2026
26	Nov 28, 2026	Dec 11, 2026	Dec 18, 2026
27	Dec 12, 2026	Dec 25, 2026	Dec 31, 2026

Scope

TourClicks is an independent Ausuba3D project. It is not affiliated with or endorsed by USPS or any labor union. App calculations and projections support personal recordkeeping and must be compared with official records.
